Countering Militancy in Pakistan: An international conference

An international conference entitled *Countering Militancy in Pakistan: Domestic, Regional and International Dimensions* is being organized by the Centre for Muslim States and Societies (CMSS) at the University of Western Australia (3–4 August 2009). The conference is being co-sponsored by the AusAID, the ARC Asia–Pacific Futures Network (Islam Node), and the Embassy of France in Australia. The conference addresses a major issue of our times which is likely to impact upon the regional and global developments. Our aim is to engage all those interested to understand the factors that are contributing to militancy while simultaneously exploring ways in which Pakistan can be assisted in dealing with the problem. I sincerely hope that you can attend the conference and also bring it to the notice of others who may benefit from participation. The details of the conference can be obtained from <http://www.cmss.uwa.edu.au>.

WA Seniors Awards - Looking for WA's sensational seniors

Western Australian seniors are some of the most giving people. They donate their time to many very worthy causes and organisations. They also provide a wealth of knowledge and experience and are role models to younger generations. The WA Seniors Awards provides us with the opportunity to recognise these ordinary people for their extraordinary contributions to the community.
